

DEBASISH PRADHAN

Computer Science Undergraduate | Software Development & AI Projects

+91 6372669646 Brahmapur, Odisha [linkedin.com/in/debasish-pradhan](https://www.linkedin.com/in/debasish-pradhan) github.com/Debasishpradhan28 debasishpradhan236@gmail.com

ABOUT ME

Computer Science undergraduate experienced in building AI and software applications using Python. Developed projects including an AI-based Network Intrusion Detection System, SkillFolio AI career assistant, and MindMate AI mental health companion. Skilled in machine learning, FastAPI, data analysis, and AI API integration with internship exposure in AI/ML, cybersecurity fundamentals, and data analytics.

EDUCATION

BTECH IN COMPUTER SCIENCE AND ENGINEERING

2024-Present

Veer Surendra Sai University of Technology, Burla, Sambalpur Odisha

CGPA - 8.6

2022-2024

INTERMEDIATE

Khallikote Higher Secondary School, Brahmapur, Odisha

Percentage - 83.5%

MATRICULATION

2010-2022

SSVM Ramahari Nagar, Brahmapur, Odisha

Percentage - 96%

SKILLS

- Programming : c++,python,JavaScript
- Web Development : FastAPI,HTML,CSS,React.js,Node.js
- Tools : Git ,GitHub ,VScode,figma
- Machine Learning- Scikit-learn, Pandas, NumPy
- Databases-MySQL

PROJECTS

SkillFolio - AI Resume and Portfolio Generator

Full Stack Web Application | Python, FastAPI, Google Gemini API, JavaScript, Tailwind CSS, HTML

- Developed an AI-powered platform that converts user conversations into ATS-optimized resumes and portfolio websites.
- Integrated Google Gemini API to extract skills, generate professional resume content, and provide career insights.
- Implemented features including AI mock interviews, skill gap analysis, and multi-template resume generation.
- Built full-stack architecture using FastAPI backend and responsive frontend, deployed on Render.

INTERNSHIP/ TRAINING

CYBERSECURITY WITH GENERATIVE AI

Dec 2025- JAN 2026

Vodafone Idea(VOIS) - Edunet Foundation | Virtual Internship

- Completed training on system security fundamentals,android device security practices.
- Developed a Python based keyboard event monitoring system to track and log keystroke activity.
- Designed and developed a machine learning based intrusion detection system to identify malicious network traffic using python, HuggingFace ,Scikit-learn ,Streamlite ,Groqcloud(Major Project)

Artificial Intelligence and machine learning Internship

JAN 2026 - FEB 2026

Edunet Foundation | AICTE | IBM SkillsBuild

- Built MindMate - an AI-driven mental health companion using Python, Streamlit, Gemini API, gTTS, and Pandas.
- Implemented real-time emotion detection with multilingual conversational support.
- Developed an interactive AI chatbot interface using Streamlit for mental health assistance.
- Applied machine learning and NLP concepts during a 6-week industry training program.

COURSES/CERTIFICATIONS

- Introduction to Generative AI Studio - Course Certificate by Simplilearn.
- Power BI for Business Applications - Microsoft Elevate (AICTE) | Data visualization & dashboard development with Microsoft Power BI.
- AI for Sustainability - IMIB x IBM SkillsBuild | Responsible AI concepts and AI solutions aligned with UN SDGs.

ACHIEVEMENTS

- Cleared Internal Round - Smart India Hackathon 25, proposed an innovative solution.
- Participant - HackOdisha 5.0, built a full-stack solution under time-bound challenge.
